

200kWh Photovoltaic Battery Cabinet for Steel Plant

Overview

The outdoor cabinet-type photovoltaic storage system, boasting a power rating of 100kW/200kWh, seamlessly amalgamates energy storage batteries, PCS, power distribution, temperature regulation, fire safety measures, water-immersed door sensors, and monitoring and communication. The outdoor cabinet-type photovoltaic storage system, boasting a power rating of 100kW/200kWh, seamlessly amalgamates energy storage batteries, PCS, power distribution, temperature regulation, fire safety measures, water-immersed door sensors, and monitoring and communication. Our all-in-one outdoor cabinet (50-100kWh) features an IP55 design, LFP cells, and easy expansion for C&I applications. BSLBATT ESS-GRID Cabinet Series is an industrial and commercial energy storage system available in capacities of 200kWh, 215kWh, 225kWh, and 245kWh. It offers peak shaving, energy. The All in one Battery Outdoor Cabinet is designed for C&I applications. The ESS Battery System is compatible with 200kWh / 215kWh / 225kWh / 241kWh capacities. The cabinet incorporates multi-level protection mechanisms, including fault isolation and fire-resistant materials, to ensure operational. Energy storage A grade LFP cell, service life > 8,000 cycles. Resistance up to C5 corrosion level, with 20-year reliability. Smarter design controls battery temperature difference to 3°C.
