

# 690V Power Cabinet for Photovoltaic Energy Storage Futures

## Overview

73kWh LiFePO<sub>4</sub> battery pack and a 186kW AC output, this unit delivers both performance and durability for on-grid, off-grid, and hybrid systems. With a rated grid voltage of 690V, it's ideal for microgrids, renewable energy buffering, and peak shaving in. The 418kWh BESS Cabinet is a high-capacity all-in-one (AIO) energy storage cabinet built for commercial and industrial (C&I) users who need fast deployment, scalable expansion, and clean integration with modern PV and low-voltage distribution systems. The platform integrates key subsystems—battery. Highjoule delivers fully customizable energy solutions including foldable PV containers, integrated PV+storage systems, hybrid PV/storage/diesel cabinets, and mobile wind-solar units for diverse industrial/commercial applications. These systems bridge the gap between solar panel production and energy consumption, storing excess power for later use. Sustainable, high-efficiency energy storage solutions.
