

Do I need to apply for individual solar power generation

Overview

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. The Registered Design Professional (RDP), either a NYS licensed Professional Engineer (PE) or Registered Architect (RA), must prepare drawings and submit the job filing online through DOB NOW: Build. The RDP submitting the filing is known as the Applicant of Record. The Guidebook's chapters cover a variety of solar energy topics including, the permitting process, property taxes, model solar energy. How do I file for a permit to add solar electric panels on my home?

Owners must hire a Registered Design Professional who is registered with the Department to submit plans and an application for approval.
