

Dustproof type outdoor communication cabinet for factory users

Overview

Prioritize IP65-rated enclosures for dust/water resistance (minimum IP55 for moderate climates). Validate compliance with ETSI EN 300 019 and GR-487-CORE standards for environmental resilience. Rack dimensions should align with 19-inch EIA-310-D specifications for equipment. Outdoor communication cabinets play a vital role in safeguarding critical equipment in commercial environments. These cabinets shield sensitive components from harsh weather conditions, including moisture, dust, and temperature extremes. NEMA and IP ratings help determine their ability to resist. KDM's outdoor telecom enclosures are weatherproof, rainproof, waterproof, sun-proof, and dustproof cabinets with IP ratings of IP55 up to IP67 ratings and NEMA standards of 3R up to 6. We design and manufacture high-quality custom enclosures, while providing professional assembly, system integration, and tailored support services for telecom. AZE is an OEM NEMA type or IP rated Outdoor Enclosure Manufacturer, our products are designed for Harsh Outdoor Environments, AZE provides a large variety of standard sizes from 16" to 90" high and from 25" to 42" deep with adjustable and reversible EIA 19" or 23" racking rails, front and rear doors. Discover our wide range of IP & outdoor cabinets made of steel, stainless steel or aluminium. Perfect for the use in indoor and outdoor areas such as industrial environments, damp and humid spaces, as well as for telecommunication and wide area (FTTx) networks.
