

Huawei s module for charging solar battery cabinet lithium battery packs

Overview

The ESM-48150A1 is an energy storage module based on innovative Li-ion technology. It is especially designed for telecom sites with advanced features: long lifespan, wide range of charging voltage, fast charging, intelligent management, and software anti-theft. 0 lithium battery cabinets are deployed outside the smart module: One integrated UPS can connect to a maximum of 10 SmartLi 3. When multiple cabinets are connected in parallel, only the master cabinet has an LCD. The cycle life is long and can. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. Page 3 About This Document About This Document Purpose This document describes the SmartLi 2. Smart active voltage balance control supports battery strings with different lithium battery counts. Automatic grouping and capacity checks reduce manual testing costs and avoid power. The new HUAWEI FusionSolar battery storage system is designed for intensive use and versatile applications.
