

Leading enterprise of wind power generator

Overview

As of July 2025, top companies in Wind Electric Power Generation industry include RTS Wind UK, T-Omega Wind and Triton Anchor. RTS Wind UK leads the list with an impressive annual revenue of \$3. 5M and valuation, bolstered by 80 employees. This clean source produces electricity. Ember's latest yearly electricity generation, capacity, emissions and demand data from more than 200 geographies, published in December, showed that wind power's share of worldwide electricity usage in 2022 was 7. In 2018. Top 5 wind turbine manufacturers in the world including Vestas, Siemens Gamesa, Goldwind, GE Vernova and Envision energy continue to dominate global wind turbine markets with massive installed bases and expanding order books. This article ranking highlights the top 15 makers of wind turbines. Over the past two decades, GE Vernova has led the evolution of the wind industry, and in the next two decades, wind is expected to grow from 1900 TWh/year and 7% of the world's energy to 12,000 TWh/year and 25%+ of the world's energy. To lead this Energy Transition will require innovative solutions. The global energy landscape is undergoing a profound transformation, and wind power plays a pivotal role within it. This year, they released their figures just three days apart, allowing us to make a brief comparison between the data.
