

# Solar RV Modification Accessories

## Overview

We really like to boondock, so the ability to harness free solar power from the sun is amazing. The word "solar" encompasses many different components to an overall system. This includes solar panels (either on th. RV's usually come with a single 12 volt battery. This is fine to keep the lights on for a while and run the electrical part of a gas fridge, but if you're looking to camp off grid, adding more batt. If solar isn't an option, then having an on-board or portable generator is great upgrade for dry camping. We have a Honda 2000 watt generator that is a great alternative when. If you want to get out to these epic spots, you need to be sure your rig can handle the rugged terrain it has to go through to get there. We worked with MORryde to have their Independent. Another upgrade MORryde offers, one that usually goes hand-in-hand with Independent Suspension, is upgrading to disc brakes. Trailers and 5th wheels usually come with drum.
