

Solar photovoltaic panels rebate

Overview

Panels installed from January 1, 2026 onward receive no federal tax credit. The 30% credit that had been in place — worth an average of \$6,000–\$9,000 on a typical residential installation — is simply gone. The city of Philadelphia created a solar rebate program in 2019 that offered rebates of \$0. However, this program was suspended due to budget cuts related to COVID-19. PBI's are incentives based on the energy production of a solar system. This compensation is. Beginning June 1, 2026, solar and battery installations must be completed by a Home Performance Contractor Network (HPCN) member to be eligible for rebates. We're offering rebates up to \$5,000 on eligible grid-connected solar panels and up to an additional \$5,000 for battery storage systems. The Investment Tax Credit (ITC) allows you to deduct 30% of the cost of your solar energy system from your federal taxes. Available nationwide through 2032. 11 ct/kWh, Italy Ecobonus 50%, France OA up to 23.
