

Solar powered onsite energy enterprise

Overview

Onsite energy solutions for businesses—optimize usage, cut costs, and boost resilience with behind-the-meter solar generation, battery storage, and management. On-site generation is a valuable tool in decarbonization efforts due to its lasting operational benefits, additionality, and other unique advantages. While implementing a program across an enterprise may seem complex, the benefits — such as generating renewable energy directly at the source and. At Alight, we help energy-intensive businesses switch to solar. We build, operate and own onsite and offsite solar projects, and sell that clean power to companies at a low, fixed cost backed by power purchase agreements (PPAs). From solar panels and combined heat and power (CHP) systems to advanced battery energy storage systems, on-site solutions. Specializing in tailor-made solar and energy solutions for any type of site, TotalEnergies' Renewables On-Site Solar expertise spans over 30 countries. 9 GW of signed PPA agreements with over 700 C&I customers, of which 1. Here's what to expect when you partner with ESA to power your business with solar.
