

# Square tube rack for photovoltaic panels

## Overview

Designed to hold one or more panels up to 2400W or 350lbs, it's the strongest mount available and the perfect top-of-pole solar mount for off-grid cabins, RV's, tiny houses, farms, irrigation, remote telecommunications, or any application that requires a single pole mount to. Designed to hold one or more panels up to 2400W or 350lbs, it's the strongest mount available and the perfect top-of-pole solar mount for off-grid cabins, RV's, tiny houses, farms, irrigation, remote telecommunications, or any application that requires a single pole mount to. Square tubes have become the backbone of modern photovoltaic installations, offering unmatched versatility for both rooftop and ground-mounted systems. Their geometric efficiency allows 30% faster assembly compared to traditional C-channels, while maintaining superior wind resistance up to 130 mph. There are square tube photovoltaic varieties to accommodate different energy requirements and mounting orientations. Explore high-performance, corrosion-resistant products ideal for construction, energy, and marine applications. Find your perfect match today! Delta Steel, one of the largest structural steel service centers in the country, is well equipped to help with your solar panel projects.
