Imagine a toolbox that never rusts, scales to any size, and stores renewable energy instead of hammers. That's essentially what the St. Outdoor Cabinets Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments. ' It also maximizes operations and energy efficiency. The solution is based on Huawei's extensive experience in building the telecommunication networks and our focus on customers' needs. Battery storage is the fastest responding on, and it is used to stabilise those grids, as battery.
