

# Sunshine New Energy Industrial and Commercial Energy Storage Project Development

## Overview

Utility-scale solar and solar-plus-storage projects (10-100+ MW), from early-stage development support to full EPC, creating large-scale clean power assets. focuses on EPC contracting for solar PV, energy storage, and smart energy projects. With engineering excellence at our core and results as our priority, we deliver one-stop turnkey solutions from concept design, equipment selection. From C&I rooftops to medium and large-scale solar farms, Sunshine International has delivered a portfolio of benchmark solar and storage projects in multiple regions. 6MW New Energy Project When choosing an industrial and commercial PV installer, business owners are most concerned about durability and quality assurance. After all, if a power station wants to run smoothly for a long time, choosing the right partner is to open a “new chapter” for enterprises to reduce costs and increase. Advanced battery energy storage systems for grid stability, peak shaving, and renewable energy integration. From frequency regulation to peak shaving, our. “Photovoltaic + Storage”: Sunshine New Energy Partners with JD to Create a New Zero-Carbon Park Model! In the current trend towards carbon neutrality, the integration of green energy with the real economy is advancing rapidly. Cangsong, member of the Standing Committee and Secretary-General of Harbin Municipal Party.
